CR 300 SERIES
GAS GRILL CYLINDER
STORAGE CABINETS
© 2001 H&H Sales Company, Inc.

H&H Storage Cabinets for the 20# Gas Grill Cylinder Exchange Market

H&H has designed storage cabinets to merchandise LP-gas through the convenience of a consumer exchange program for gas grill cylinders.

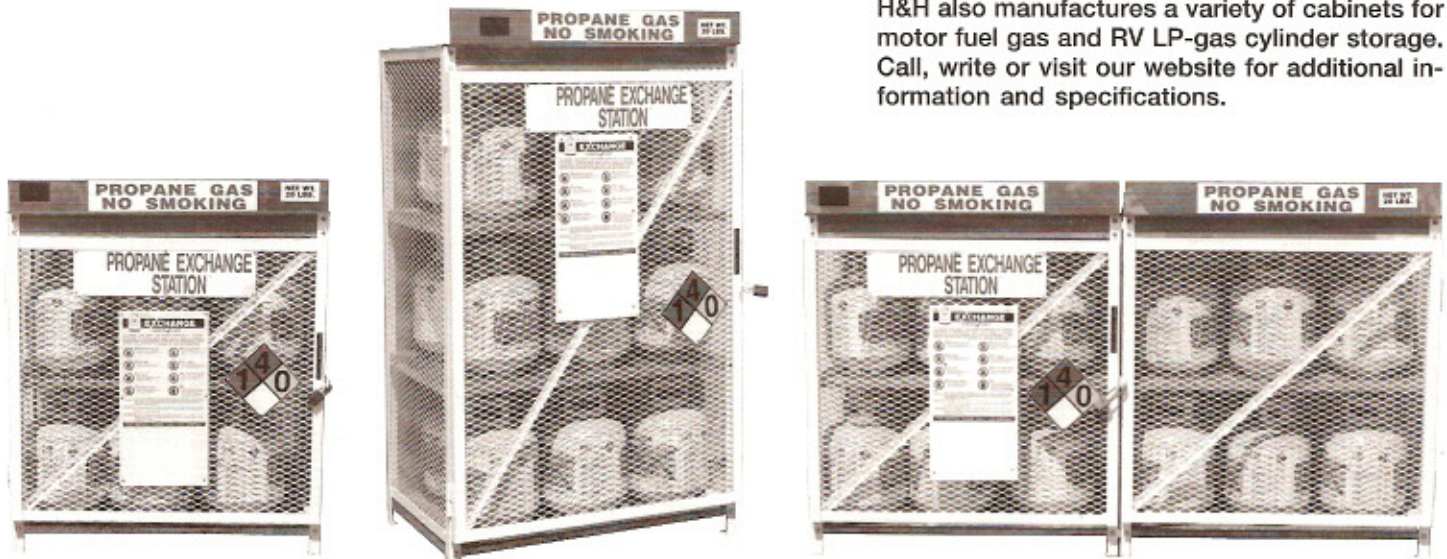

These cabinets accommodate 20 lb LP-gas grill cylinders and are available in three cabinet sizes with cylinder capacities of 12, 18 and 24. A 36-cylinder capacity cabinet is available on special order. All cabinets are two cylinders deep, enabling easy access when removing cylinders or when restocking the cabinet.

Each cabinet is ruggedly constructed of steel with reinforced sides and back which meet the following standards:

OSHA — Subpart H, sec. 1910.110
National Fire Protection Assoc.-58-1986, sec. 5

All H&H cabinets have a keyed padlock, tamper-proof padlock hasp and drop hinges welded to the door and cabinet frame for ultimate security. Bolt-together design makes these storage cabinets easy to assemble with basic hand tools. The cabinet finish is an electrostatic white powder paint which resists scratching, chipping and fading. Replacement parts are available from H&H.

H&H also manufactures a variety of cabinets for motor fuel gas and RV LP-gas cylinder storage. Call, write or visit our website for additional information and specifications.

Model CR-312

Model CR-318

Model CR-324
