# GS-100 & GS-200 Fuel Gas Cylinder-Stor Cabinets

*Left and above: Single section Cylinder-Stor Cabinet GS-100 is shown with door closed and open. Right: Double section Cylinder-Stor Cabinet GS-200 has two outward opening doors, which have been removed for photographic purposes.*

The GS-100 and GS-200 are tamper-proof cabinets for safe outside storage for acetylene, oxygen, MAP, and similar fuel gases. These rugged, powder-coated cabinets can be shipped knocked down or assembled. Cylinder-Stor Cabinets can be assembled in less than an hour with hand tools.

Cylinder-Stor Cabinets are available in single section (GS-100) and double section (GS-200) models. Both models are furnished with tamper-proof padlock hasps, keyed padlocks and bolt-down features for complete security and safety. Steel flooring can be added where required.

## Features

- Meets requirements of OSHA Subpart Q, sec. 1910.252 and Compressed Gas Association.
- Stores all cylinder sizes up to 200 lb.
- Tamper-proof padlock hasp and drop hinges welded to door and cabinet frames.
- Pre-affixed "No Smoking" and "Fuel Gases" or "Oxygen" signs available. Please specify.
- Optional center divider wall is available for GS-200 only.
- 4/0 chain for securing cylinders.
- Cabinet back panels reinforced against the slamming of cylinders.
- Yellow powder-coated finish.
- Fast set-up with hand tools.
- May be bolted to floor or slab.
- GS-200 has NYC Fire Dept. Certificate of Approval #4741.

## Specifications

Model	Outside Dimensions W" x D" x H"	Construction				Finish	Weight
		Wall Panels	Cabinet Frame, Tank Dividers	Door Frames, Side Panel Reinforcements	Roof		
GS-100	30 x 39 x 70	16 ga. expanded metal with ¾" openings	1½" x 1½" x ⅛" angle iron	1½" x 1½" x ⅛" angle iron	18 ga. galvanized steel	Electrostatic powder coating	200 lb.
GS-200	60 x 39 x 70						300 lb.

Note: Many state and municipal authorities have regulations concerning the storage and use of compressed gases. Please consult the authorities in your area for specific information.

OSHA does not allow empty and full cylinders to be stored in the same cabinet. When ordering GS-100 cabinets, please specify "Empty Cylinders" or "Full Cylinders" signage.

# Now H&H makes moving and storing cylinders easier and safer than ever before

*KK336 may be handled by fork lift.*

*A security strap is standard on all 300 Series Kaddy-Karts, including KK300CT.*

*KK600 may be handled by fork lift or crane.*

*KK306 has chains and latches to hold individual cylinders.*

*GS-200 is a tamper-proof cabinet for safe outside storage.*

*DeliverAll truck body has standard in-bed hydraulic lift platform.*

*Optional sign panel displays your message and confines cargo.*

H&H offers storage and moving equipment that will reduce labor, increase safety, and save money.

**For moving**—H&H Kaddy-Karts are small enough to move conveniently through most doors and traffic lanes yet large enough to carry large supplies of cylinders. A pallet-type bottom allows quick fork alignment. Some models come with casters, towing hitches, and crane lifting eyes. There's a model for your operations.

For welding gas dealers, H&H manufactures the worksaving EW Series truck bodies. This modular-design body comes with your choice of steel tread-plate or bar grate flooring for confident transport. An in-bed hydraulic lift provides easy loading/unloading of your optimal payload.

**For storing**—Our Cylinder-Stor cabinets offer convenience and secure outside storage. Both single and double-section models are furnished with tamper-proof padlock hasps, keyed padlocks, and bolt-down features for complete security and safety.

Get H&H to start helping you today to safer and easier handling of your cylinders. Call toll-free: 1-800-551-9341.
